EES COSMETIC SOLUTIONS OFFERS NEW REVENUE OPPORTUNITY FOR SPA AND SALON OWNERS
Showcases New Private Label Solutions at Christian Chamber of Commerce Marketplace Expo

CHERRY HILL, NJ – October 15, 2009 – EES Cosmetic Solutions has established a new consulting division to help spas, salons and small business owners develop their own line of high quality, private label personal care and cosmetic products. EES is showcasing these revenue-generating solutions at the Christian Chamber of Commerce Marketplace Expo (booth #404) taking place today at the Crowne Plaza Hotel in Cherry Hill, NJ.

According to industry reports, the global skin care market is predicted to reach \$44.8 billion by 2010, with spa, salon and personal care products experiencing steady growth despite the recession. With EES' consulting expertise and products, small businesses can capitalize on this trend by developing their own brand of specialty personal care and cosmetics products to sell to their customers.

"We have been servicing the largest cosmetic companies as well as smaller contract manufacturers since our inception, and now are bringing our knowledge of the industry to the small business, spa and salon owner," said Ed Schack, Owner of EES Cosmetic Solutions. "We have been involved in the cosmetic, personal and household care businesses for more than 30 years. We will help the customer from their 'big idea' straight through the delivery of their new product line."

EES uses only the finest ingredients and components from top global providers to ensure their customers' products are first-rate. EES partners meet the most strict industry requirements and have earned ISO, Kosher, and Organic certifications along with cGMP (Current Good Manufacturing Practices) requirements regulated by the FDA.
